

Grace College

2016

FIRST DESTINATIONS REPORT

Undergraduate

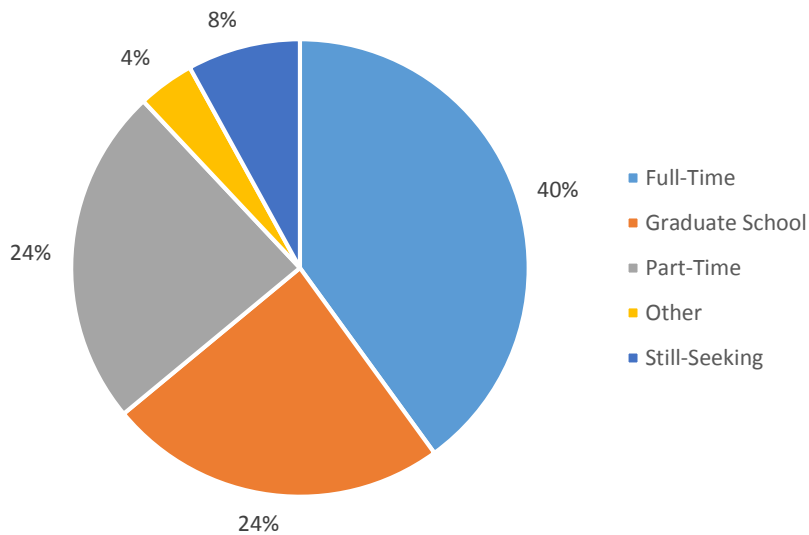

2016	
Level of Excellence	79%
Level of Success	91%
Number of Responses	244
Full-Time	171 / 70%
Graduate School	22 / 9%
Part-Time	30 / 12%
Other	12 / 5%
Still-Seeking	9 / 4%

The following is a list of definitions pertaining to the charts listed below.

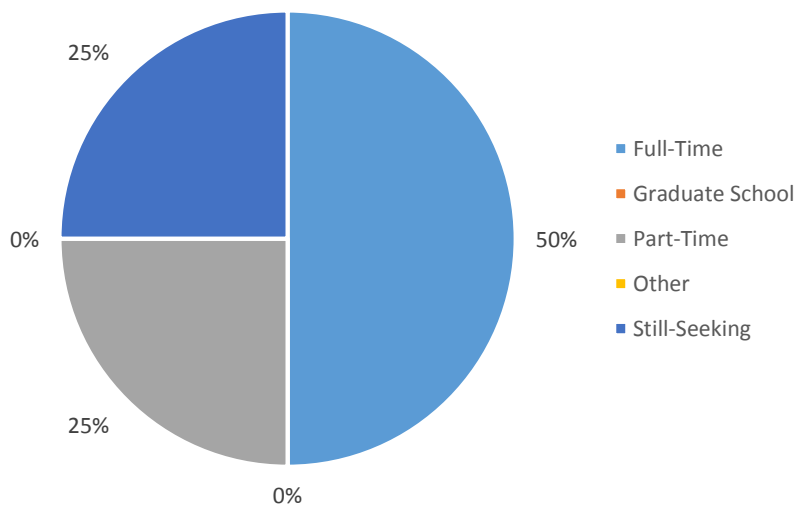

The **Level of Excellence** is derived from graduates who reported being Full-Time Employed as well as those who are attending Graduate School, while **Level of Success** further includes graduates who are Part-Time Employed. Respondents were only given one choice in response and therefore the resulting charts indicate the “type” of post-graduate activity they deem most relevant to them. Because a number of graduates major in more than one discipline, results are a duplicated count, including graduate results from each identified major. The **Number of Responses** is the total number of graduates who responded to the survey identified as representing a particular department. **Full-Time** refers to the number of graduates in that department who obtained a full-time position (30+ hours per week) after graduation; those who selected **Part-Time** obtained a position of less than thirty (30) hours per week. **Graduate School** refers to the graduates who applied and were accepted into, or were planning to attend, graduate school. **Other** is a culmination of additional categories, including: **Post-Graduate Internship or Fellowship, Mission, Gap Year, or other service experience, not seeking**, and **Military Service**. Finally, those who referred to themselves as **Still-Seeking Employment** were the graduates who responded to the survey, but have yet to realize an identifiable first destination within six months of graduation. Data was collected via a self-report survey, research from LinkedIn and Facebook media platforms.

### Art Department

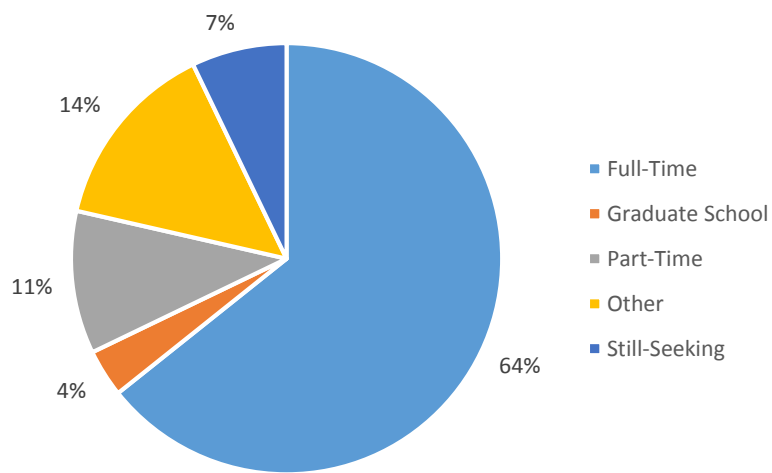

2016	
Level of Excellence	64%
Level of Success	88%
Number of responses	25
Full-time	10 / 40%
Graduate School	6 / 24%
Part-time	6 / 24%
Other	1 / 4%
Still-Seeking	2 / 8%
