The next generation of leaders will be avid readers. There are 66 books we would highly recommend.

The Bible is a book about God. It describes God as the Creator who not only creates but also sustains His creation. The Bible is about a Holy God who wants to live in relationship with His people through covenant. It is about a loving God who sent His son, Jesus Christ, to die for the size of humanity. It is about a caring God who sent the Holy Spirit to indwell all believers. The Department of Biblical Studies desires for students to passionately study the Bible and apply its truths. We want to develop servant leaders who love both God and neighbor. By “correctly handling the word of truth” (2 Timothy 1:11), we set out to strengthen hearts, sharpen minds, and deepen faith as we work together in community towards the common goal of understanding and spreading the Gospel.
