Refunds and Loan Disbursements

Students enrolled in any of our Adult and Graduate programs need to be aware that they must be enrolled at least half-time in order to be eligible for a student loan. Half-time enrollment means at least six credits for the GOAL undergraduate program, Clinical and Regulatory Affairs program and Graduate Counseling programs, and at least 4 credits for all other graduate programs (online and on-ground).

Student loans will be disbursed only after all add/drop periods have passed. In most cases, this will look like the following: GOAL programs and Clinical and Regulatory Affairs programs - loans will be disbursed week 7; all other 8 week Graduate sessions (online or on-ground) - loans will be disbursed week 10.

If a student is enrolled in at least the minimum number of hours to meet half-time requirements in the first 8 week session of a semester, and no additional credit hours in the second 8 week session, their loans will be disbursed week 3.
