

Loan Disbursements

Students enrolled in any of our Adult and Graduate programs need to be aware that they must be enrolled at least half-time in order to be eligible for a student loan. Half-time enrollment means at least six credits for the GOAL undergraduate program and at least 3 credits for all graduate programs.

Student loans will be disbursed only after all add/drop periods have passed. In most cases, this will look like the following: GOAL program loans will be disbursed week 7, Clinical and Regulatory Affairs disburse week 3 and all other 8-week graduate sessions (online or on-ground) loans will be disbursed week 10.

If a student is enrolled in at least the minimum number of hours to meet half-time requirements in the first 8-week session of a semester, and no additional credit hours in the second 8-week session, their loans will be disbursed week 3.

Note: Some graduate loans may have 2 disbursements, one Session A and one in Session B.
