

LETTER OF INTENT: NEW OPERATORS

A "new operator" is defined as an applicant group that has not previously operated a charter school, and that does not intend to contract with an Education Service Provider (ESP). Per IC § 20-24-1-6.1, ESP is defined as a "for profit education management organization, nonprofit charter management organization, school design provider, or any other partner entity with which a charter school intends to contract for educational design, implementation, or comprehensive management."

A Letter of Intent must be completed by the team of individuals and/or the organization considering submitting a proposal to the Grace Schools Charter Authority, LLC to establish a charter school in Indiana.

Note: Submission of an LOI does not obligate the team and/or organization to submit a proposal. However, applicants are advised that the name of any entity that submits an LOI will be posted on the GCOC website. In addition, the LOI is subject to Indiana's Public Access Laws, including public records requests.

Name of proposed charter school: _____

Proposed charter school location:* _____

*Please indicate the city/town and, if known, potential address or neighborhood of the school location. Virtual operators should indicate the relevant geographies the operator intends to serve.
