

GRACE SCHOOL OF EDUCATION TEACHER EFFECTIVENESS RATINGS

Teacher Effectiveness Ratings: Indiana School corporations participating in the annual RISE evaluation system assess teachers on areas of **Professional Practice** and **Student Learning**. Teachers receive a rating at the end of the school year in one of four performance levels: Highly Effective, Effective, Needs Improvement, or Ineffective. The Indiana Department of Education provides data regarding graduates of Indiana Educator Preparation Programs who are in their first, second or third year of in-service teaching.

“Effective” by State Definition: An effective teacher is a teacher who has consistently met expectations, as determined by a trained evaluator, in locally selected competencies reasonably believed to be highly correlated with **positive student learning outcomes**, have generally achieved an **acceptable rate of academic growth and achievement** based on guidelines suggested by the Indiana Department of Education.

Note: The following information is provided to Indiana Educator Preparation Providers (EPPs) by the Indiana Department of Education (IDOE). IC 20-28-3-1 and IC 20-28-11.5-9 require the IDOE to collect and report information from EPPs annually. This information must be reported using a matrix which is to be posted to the IDOE website. While this matrix is not intended to rank or “grade” programs, it provides an opportunity for the public to interpret or compare program quality based on a variety of data points. **Please note that all data points are based upon the September 1– August 31 Title II timeframe.**
