### **Purpose:**

The department's purpose is to prepare students in knowledge and skills for advanced achievement of their combined capabilities in the select areas of visual and performing arts. These include studio, technology, theory, analysis, history, and performance, composition/improvisation, and repertory..

### **Goal:**

In preparation for professional careers in the visual and performing arts our goal is to provide students with studies, practice, and experiences from a Christ-centered perspective that will serve to guide in the development of their ability to: 1) demonstrate excellence in creative work, 2) achieve competency in the use of tools and technology in their areas of specialty, and 3) articulate analytical perceptions in theoretical, cultural and stylistic contexts.

### **Faith Integration:**

We look to scripture to understand the source of our creativity. In Genesis 1:1, we read, *In the beginning, God created the heaven and the earth.* Foundational art methods of concept, process, product, and critique are revealed in Genesis 1:2-4. When the earth was in darkness, God conceptualized light. Next came His process and product. He spoke the words, *Let there be light*, and there was light. He then evaluated what He had made and proclaimed that it *was good*.<sup>3</sup>

Because creativity is an act of worship, our work is infused with our faith. As artists, we envision the great Creator. Being made in His image, we strive to achieve His example of excellence so that we, too, can evaluate our creative work as *good*.

The Visual and Performing Arts Department is dedicated to assisting students in the synthesis of defining their calling as artists, Christians, and professionals that will enable them to communicate with expertise in a visually oriented world.

**Outcomes:**

1) Students will demonstrate achievement of professional, entry-level competence in the major area of specialization, including significant technical mastery, capability to produce work and solve professional problems independently, and a coherent set of artistic/intellectual goals that are evident in their work.<sup>2,3</sup> 100% participation required. **Assessment:** A senior project or final presentation in the major area is required. (Addresses *Character*)

2) Students will demonstrate competency by developing a body of work for evaluation in the major area of study.<sup>2</sup> 100% participation required. **Assessment:** Students in visual arts program will exhibit a senior body of work in the public setting; students in the worship arts program will perform a final public recital. (Addresses *Competence*)

3) Students will demonstrate the ability to form and defend value judgments about art and design and to communicate art/design ideas, concepts, and requirements to professionals and laypersons related to the practice of the major field.<sup>2</sup> 100% participation required. **Assessment:** A scholarly product or final presentation relevant to field experience in the major area is required. (Addresses *Service*)

4.) Within the Worship arts program, students will demonstrate the ability to form and defend value judgments about music, and to communicate musical ideas, concepts, and requirements to professionals and laypersons related to the practice of the major field.<sup>3</sup> **Assessment:** A scholarly product or final presentation relevant to field experience in the major area is required.
