

Position Announcement

Position	Department
Part Time Instructor of Life Science	School of Science & Engineering

Grace College and Seminary welcomes diversity, and makes employment opportunities available to all applicants and employees without regard to gender, race, color, pregnancy, age, ancestry, national origin, disability, citizenship status, military status, genetic information, or any other legally protected category.

Grace College invites applications and nominations for the part-time position of **Life Sciences Instructor**. Responsibilities include teaching a variety of biology-related courses to help support both the Biology and Health Science programs.

The candidate should have a broad background in the biological sciences in order to teach a diverse array of life science courses, including Animal and Plant Biology; Microbiology; Biochemistry; Cell and Molecular Biology; Anatomy and Physiology, among others. The successful applicant should also be a strong proponent of active and/or applied forms of learning, including the incorporation of case-studies, group work and discussions within the classroom experience. Moreover, applicants should uphold a strong commitment to the traditions of liberal arts education while continually identifying opportunities to integrate faith within classroom instruction in a manner that complements course content. Lastly, the applicant should have a contemporary understanding of biology-related topics based on recent findings and current publications.

[Grace College](#) is a Christ-centered Liberal Arts College informed by pietist and evangelical traditions. Located in the resort community of [Winona Lake](#), near Warsaw, Indiana (36 miles west of Ft. Wayne), Grace College offers 52 academic majors (38 minors). Central to the [mission](#) is developing character, sharpening competence, and preparing for service. Our goal in Christian living and teaching is to make Christ preeminent in all things. The programs of the college, as well as its community lifestyle commitment, are designed to encourage serious academic inquiry, a biblical worldview, spiritual understanding, and social conscience, all in the context of God's grace.

Qualifications:

1. At least a Master's degree with 18-credits in a life science, or subdiscipline; PhD is preferred.
 2. Strong communication skills with a disposition that positively reflects their Christian faith.
 3. Student-centered approach to learning that blends both active and didactic forms of instruction.
 4. A desire to integrate faith with learning in the classroom.
 5. A willingness to collaborate with colleagues and students.
