

LCS Job Description- Math Teacher

Lebanon Christian School Middle/High School is seeking a full-time Middle School Math Teacher (grades 6–9 or 7–12) for the upcoming school year. The ideal candidate is a dynamic, personable, and engaging educator who builds strong relationships with students, families, and colleagues and partners with parents in Lebanon Christian Schools' mission to provide a Christ-centered education through a biblical worldview. The successful candidate will foster the spiritual, academic, social, and emotional growth of each student while helping them develop strong mathematical reasoning, problem solving skills, and confidence in learning. The teacher will use the primarily BJU Press (BJUP) math curriculum as the core instructional resource for all assigned courses.

Rooted in the school's vision of pursuing academic excellence and developing highly skilled Christian leaders who can affect their world for Christ, this role supports Lebanon Christian Schools' goals of nurturing students' academic and spiritual formation and preparing them to serve with integrity in their church, school, community, and future careers. The Math Teacher will help students see mathematics as a way to think critically, make wise decisions, and serve others faithfully, in alignment with the school's mission and values of Christ-centered living, academic excellence, servant leadership, and faithful service, while effectively implementing the BJUP curriculum in instruction, assessment, and classroom practice.

General Responsibilities

As a professional educator at Lebanon Christian Schools, the teacher will:

- Demonstrate alignment with and commitment to the school's mission, vision, core values, philosophy, objectives, policies, and procedures
- Maintain valid Ohio licensure
- Communicate regularly and effectively with parents/guardians, colleagues, and administration
- Participate in school-sponsored professional development
- Fulfill all teaching duties as assigned by the principal
- Attend required faculty and staff meetings

- Collaborate with faculty and administration on school-related activities and initiatives
- Integrate Biblical principles and a Christian worldview throughout instruction
- Maintain accurate student attendance and academic records
- Provide a safe, orderly, and secure classroom environment
- Maintain confidentiality and professional discretion regarding students, staff, and school matters
- Perform additional duties as assigned by the principal or designee

Core Position Expectations

- **Christ-Centered Living:** Model growing faith and local church involvement through words and actions
- **Mission Alignment:** Partner with families to glorify God through Christ-centered math education
- **Academic Excellence:** Teach algebra, geometry, and calculus through biblical truth, fostering analytical thinking and problem-solving
- **Christian Leadership:** Equip students with mathematical reasoning and discernment to lead faithfully in STEM fields
- **Collaboration:** Partner proactively with colleagues to integrate data analysis across disciplines
- **Innovation:** Leverage graphing calculators, Desmos, and coding tools for conceptual math mastery
- **Ambassadorship:** Promote LCS math program as rigorous preparation for college and kingdom impact
- **Adolescent Engagement:** Connect with grades 6–12 through real-world math applications and competitions

Qualifications

- Bachelor's degree required
- Valid Ohio teaching license (Adolescence to Young Adult [7–12] or Middle Childhood [4–9]), with a concentration in Mathematics or a related field
- Experience teaching adolescents in a secondary setting preferred
- Two to three years of teaching experience preferred
- Strong collaboration and teamwork skills
- Self-motivated with the ability to manage multiple responsibilities effectively
- Willingness to learn and integrate new technologies and instructional tools
- Ability to make sound decisions in a fast-paced environment
- Successful completion of BCI and FBI background checks
- Alternative qualifications may be considered by the Principal or Head of School

Required Skills and Abilities

- Strong interpersonal and communication skills, oral, and written
- Effective active listening
- Ability to work both independently and collaboratively
- Strong organizational and problem-solving skills

Working Conditions

- Frequent interaction with adolescents and teens
- Regular classroom-based instruction and supervision
- Frequent sitting, standing, walking, bending, kneeling, and reaching
- Occasional lifting of instructional materials and classroom resources
- Occasional movement throughout the building for meetings, duty assignments, professional development days, work days, or school events
- Occasional evening or special-event commitments
- Potential exposure to loud environments during assemblies, transitions, or school activities

***This job description is not exhaustive and may be modified as needed. The employee is expected to perform all duties as assigned by the Administration or designated authority.**
